Barcelona, Spain

WORK EXPERIENCE

MediaMarkt Saturn

IT Asset Management

Barcelona, Spain

Nov 2024 - Present

- **Executed the manual migration** of a global CMDB (~300,000 hardware assets) from **ServiceNow** to **Ivanti Neurons** and **USU**, reconfiguring the environment from scratch.
- **Developed and optimized ETL pipelines** using **Workato (iPaaS)**, **Python**, and **JavaScript** to integrate data from **Microsoft Intune**, **GCP**, and **Excel**, ensuring normalization.
- **Optimized UI/UX** and implemented logical workflows in Ivanti and ServiceNow to automate manual tasks and streamline metadata-driven attribute assignment.
- **Collaborated with stakeholders across 11 countries** to analyze data inputs and troubleshoot platform issues within an **Agile/Scrum** team environment.

EDUCATION

Universitat Politècnica de Catalunya

Barcelona School of Informatics (FIB)

Degree in Informatics Engineering

Erasmus at the Czech Technical University, Prague, Czechia

Barcelona, Spain

2020 - Jan 2025

Feb 2024 - June 2024

Thesis Project: "HuntDown" (Vulnerability Detection Tool)

- Worked in the **Frontend** development of a security tool. Focusing on **UX/UI** and usability using **React** while ensuring a clean and more functional interface.
- Optimized **Node.js** backend connectors and created new attack workflows to improve system performance and modularity.
